

Coos Bay Harbor Safety Plan
Appendix I

Appendix I - Recommendations

Recommendations	Date Presented	Status
Review of the towing lanes and crabbing area for Coos Bay presented by Washington State University Extension as part of the Washington Sea Grant. Towing lanes and crabbing areas for Coos Bay are not reflective of the actual situation. Recommend reviewing the agreement reached between towing companies and crab fishermen.		
Local newspaper can assist with safety by providing information to the recreational salmon season fishermen/boater about weather, tide and bar conditions as well as Rules of the Road.		
Additional education and outreach programs to the recreational and commercial boating community on the causes for accidents and mitigation measures.
